

Dual Section Wall mount Cabinet

MagicStudio

DESCRIPTION

FABNET Dual-section wall mount cabinet is suitable for applications where security and accessibility are required, and floor space is at a premium. The cabinets are designed to hold multiple pieces of voice/data equipment comfortably. The cabinet features a lockable glass door, adjustable front profiles and removable entry plates at the top and bottom. Ventilation is provided to allow active equipment to be installed, making it an ideal solution for small LANs, retail units and remote sites.

APPLICATIONS

- LAN & WAN networking
- Network Cabling closets
- Telecommunication room
- Security System.
- Audio / Video System.
